

VENTURA®

Ventura Aerodynamic Bike-Pack Systems are individually engineered to the requirements of different models to ensure there is no load shift whether riding solo or with a passenger. Because the load is positioned behind rather than to the sides, the rider has greater manoeuvrability in traffic and less wind resistance on the open road.

Basic Components

L-BRACKETS

All L-Brackets are individually designed and custom-made for your bike to complement its stylish looks.

PACK RACK

The Pack-Rack slots into the L-Bracket sockets and is located securely in place by two key operated locking devices. The Pack-Rack supports the pack in such a way that no load shift is possible.

GRAB HANDLE

The grab handle provides a stylish and practical way of utilising the L-Brackets when the Sports Rack or the Pack Rack are not required.

SPORTS-RACK

The Sports-Rack is designed for around town use and is interchangeable with the Pack-Rack in seconds. It also doubles as a grab handle for the passenger.

Packs

AERO DELTA IV PACK

- 35 litres of carrying capacity
- slash pocket on the front
- vertical zip to reduce capacity keeping smaller loads secure
- heavy duty YKK zippers
- padded carry handle
- reflective safety triangles front and rear
- fast release buckles

AERO SPADA IV PACK

- 45 litres of carrying capacity
- cavernous main body plus large zipped pocket
- slash pockets: one on top and one transparent on the side
- net pocket on the side secured by a drawstring
- reflective safety triangles front and rear
- heavy duty YKK zippers
- padded carry handle
- fast release buckles

RALLY II PACK

Out and out practicality makes this bag a must for the user on the move. A zip running around the back of the pack enables it to be expanded from 44 litres to a full 56 litres making it the largest bag in the range. Features include three outside and one internal pocket, D-Rings for attaching additional luggage and the facility to convert the pack into a backpack using our popular shoulder strap kit.

Designed to be used with the Ventura Bike-Pack System, the new Rally Euro can also be used with custom-cruisers fitted with a Sissybar.

SPORT II PACK

Designed to fit neatly onto the Sport rack this latest pack is ideal for waterproofs, a good book or even your lunch! Features convenient carrying handle and adjustable fittings. 10 litre capacity.

Accessories

SHOULDER STRAPS

Convert your Aero Packs into a stylish back back with these padded shoulder straps.

STORM COVER

While Ventura Aero packs are showerproof they may not remain watertight in extreme conditions. In these cases we recommend the universal storm cover.

How to Order

- Decide on your choice of bag remembering that two can be zipped together for added capacity
- Locate the model from the application list. See 'Online Shopping' (if in doubt call us)
- Order the part number of the L-Bracket kit - this is the key to the system
- Order the corresponding Pack Rack
- Order accessories such as Sports Rack, Grab rail, Shoulder straps, etc as required
