

Installation

Model specific instructions

For:

- [Triumph Daytona 675](#)

These instructions are a model specific add-on to the general BoosterPlug installation instructions.

Installation Tips

- Install the BoosterPlug module as per the general installation papers.
- The pictures below should help you locate the AIT sensor where the BoosterPlug is installed.
- Remove the seat (Yellow circle)
- Lift the front end of the tank
- The red circle will show you the location of the AIT sensor
