

Installation

Model specific instructions

For:

- Triumph Tiger 800 (2010-2014)
- Triumph Tiger 800 XC (2010-2014)
- Triumph Tiger 800 XR/XRx/XRt (2015 and up)
- Triumph Tiger 800 XC/XCx/XCa (2015 and up)

These instructions are a model specific add-on to the general BoosterPlug installation instructions.

Installation Tips

- Install the BoosterPlug module as per the general installation papers.
- The pictures below should help you locate the AIT sensor where the BoosterPlug is installed.
- Remove the seat (Yellow circle - Picture 1)
- Remove lower plastic covers on both sides (Yellow circle - Picture 2)
- Loosen upper plastic covers on both sides no need to remove them completely. (Yellow circle - Picture 2)
- Lift the rear end of the tank - make sure you don't scratch the tank against the upper plastic covers - protect the tank with a clean rag (Yellow circle - Picture 3)
- The red circle will show you the location of the AIT sensor
