RUST BLOCKER CLEAR COAT

HIGH PERFORMANCE PROTECTION

For market leading corrosion and rust protection trust RUST BLOCKER CLEAR COAT to provide long lasting protection against moisture, salt spray and other corrosive elements.

EASY APPLICATION AND REMOVAL

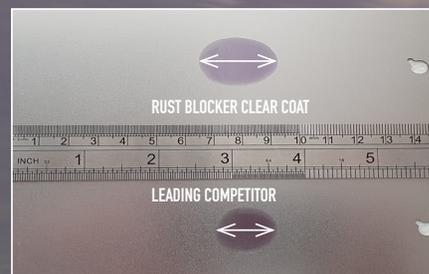

Easily sprayed, wiped, and brushed. RUST BLOCKER CLEAR COAT provides a durable, NON-STICKY soft surface film that provides excellent corrosion and rust protection.

EXCELLENT SURFACE SPREAD

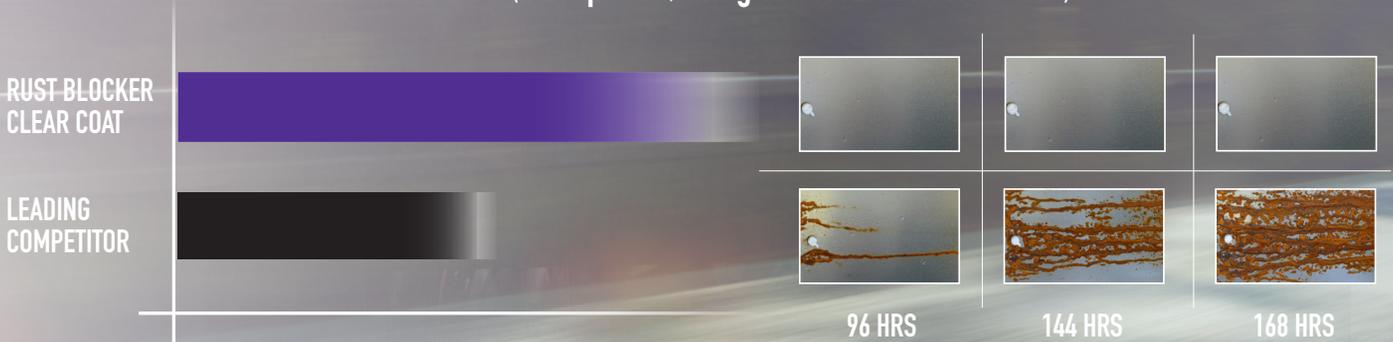

Due to its low surface tension, once applied, CLEAR COAT spreads out quickly to provide optimal surface coverage and penetrates into inaccessible areas, such as seams, joints and threads.

SURFACE SPREAD (Three drops on steel surface after 5 minutes)

ACCELERATED SALT FOG TESTING (Steel panels, using Test Method ASTM B-117)

Use it on exposed metal surfaces, including engine components, suspension units, undercarriage, box sections, chrome, chains, electrical connections, motors, shafts, spindles, as well as tools and equipment for shipping and storage, and many more!

PRODUCT SELECTION: RUST BLOCKER ORIGINAL vs. RUST BLOCKER CLEAR COAT

	Corrosion Protection	Cosmetics (Application & Removal)	Safe on electrics?	Safe on paint/plastic?
RUST BLOCKER CLEAR COAT	★★★★★	★★★★★★	YES	YES
RUST BLOCKER ORIGINAL	★★★★★ (Industrial Strength)	★★★★	YES	YES
